

Protect:

- Swimwear
- Lingerie

Function

- SWLR-1 Hygienic Liner – tab cut hygienic liner with a pattern adhesive. It is easy to install because there is no adhesive on the tab.
- Protects swimwear from being soiled, so that garments will not be “marked out of stock”.

Face Sheet

- The white, non-woven face sheet is the same as the 3M paper tape widely used for direct skin applications in hospitals worldwide.
- This material has been tested in an independent laboratory and found to be hypoallergenic and to have zero dermal irritation to the skin.
- The MSDS report is on file and available upon request.

Adhesive

Aggressive medical grade adhesive increases adherence properties to make up for the 1/3 area that does not have adhesive.

Enables the liner to stay in the swimsuit without leaving residue upon removal.

Tested in an independent laboratory and determined to have zero dermal irritation.

The MSDS report is available upon request.
